DETAILED ACTION

Allowable Subject Matter

1. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
2. Claims 1-17 are allowed.
3. The following is an examiner's statement of reasons for allowance: The examiner was unable to find prior art that showed the limitations discussed in the claims, specifically, a data processor which applied the filtering to the data word and the data word then containing the filtered data sample and the modified logical data item and then comparing the modified logical data with a predetermined criteria. The examiner considered the art in his own search as well as the art by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
